

Anenye Anthony Chinedu / Computer Scientist

Location: Nigeria

Telephone: +2348063949255

Email: hillstony29@gmail.com

Professional Profile:

An Innovative Computer Scientist and IT lead with 3+ years' experience and particular expertise in the management of operating systems, core Networking solutions, Cloud platforms and IT infrastructure projects.

Committed to leading teams in the implementation of advance systems in order to meet business objectives and to improve structure and efficiency. Possesses comprehensive technical capabilities with strong knowledge of programing software, and application, software and website development. Skilled in-service management with robust troubleshooting skills, the ability to define clear tasks and commitment to completing tasks and resolving technical issues in line with best practices and client requirement.

Core Skills

- | | | |
|-----------------------------|---------------------------|------------------------|
| . IT/Operational support | . IT service management | . Software development |
| . Team leadership/ training | . Web development | . Process improvements |
| . Customer Relationship | . Application development | . AWS cloud |
| . Project management | . Implementation support | |

Career Summary

**Computer Scientist / AWS Engineer,
Union Fibre Nigeria LTD, Delta State, Nigeria**

February 2021 – Date

Proposed and delivered tailor-made software solutions for oil engineering servicing companies in Nigeria to tackle workflow problems such as record-keeping, payroll management, and other administrative functions issues. Oversaw EC2 instances and S3 buckets as well as configured security tools such as antivirus software, firewalls, and patch management systems.

Key responsibility

- Worked with broad range of AWS Cloud Services like EC2, ELB, Glacier, Cloud Front, Auto Scaling, Route53, AMI, SNS, SQS, DynamoDB, Elasticsearch and CloudWatch and have in depth practical knowledge on other cloud services.
- Helped 30+ businesses in saving 15% cost by proposing robust software solutions.
- Safeguarded clients' data by designing and implementing security policies, application security, and access control.
- Delivered quality leadership to supervise developers' teams for completing projects within given timeframe.
- Created Lambda function to automate snapshot back up on AWS and set up the scheduled backup.
- Designed and developed AWS Cloud Formation templates to create custom VPC, Subnets, NAT to ensure deployment of web applications.
- Designed and deployed AWS solutions using EC2, S3, RDS, EBS, Elastic Load Balancer, Auto scaling groups.
- Used IAM to create new accounts, roles and groups.
- Configured S3 versioning and lifecycle policies to backup and archive files in Glacier.
- Configured S3 to host static web content.
- Configured Elastic Load Balancers with EC2 Autoscaling groups.
- Created monitors, alarms and notifications for EC2 hosts using CloudWatch and SNS.

Computer Scientist

Nuelway ICT LTD, Delta, Nigeria

May 2019 – December 2021

Implemented new responsive, mobile-first approach which increased mobile traffic by 20%.

Key responsibility

- Implemented websites, mobile applications, and landing pages from concept through deployment.
- Standardized all output with a new, responsive, mobile-first approach and strategy.
- Assessed UX and UI designs for technical feasibility.
- Developed standard and ad hoc reports in graph format as required.
- Collaborated with product team members to implement new feature developments.

Education

Bachelor's Degree in Computer Science, Tansian University Umunya, Anambra State, Nigeria, 2019.

Certifications

- Computer science degree certificate
- AWS Certified Cloud Practitioner
- AWSOME DAY Certificate of attendance
- Modern Applications on AWS Certificate
- AWS Technical Essentials Day Certificate
